Channel Partners Align with Portalis®

NORTHEAST REGION: Since the successful launch at NAB 2013, multiple Reps, Dealers, and other Channel Partners have been inquiring and aligning themselves with the Portalis® team.

The latest Manufacturer's Representative to embrace the future is Ron Witko at Dynamic Performance Technologies, Inc. Having contributed to the broadcast and related industries for over 20 years, including significant accomplishments at Chyron and Quantel, Ron is well qualified to discern world-class quality in new products. Always seeking innovative solutions to provide his customers with strategic advantage, he is delighted to have discovered a revolutionary technology that will forever change the design, engineering, and management of control rooms, worldwide : the pro-xi® Workstation Integrator.

"Dynamic Performance Technologies looks for unique products that offer solutions not found elsewhere. These solutions often result in operational cost savings for our customers. Portalis' products fill this niche."

— Ron Witko, August 2013
